

# Descartes Conference on Mathematical Models in Counterterrorism

Hosted by the Center for Advanced Defense Studies

September 28 - 29, 2006

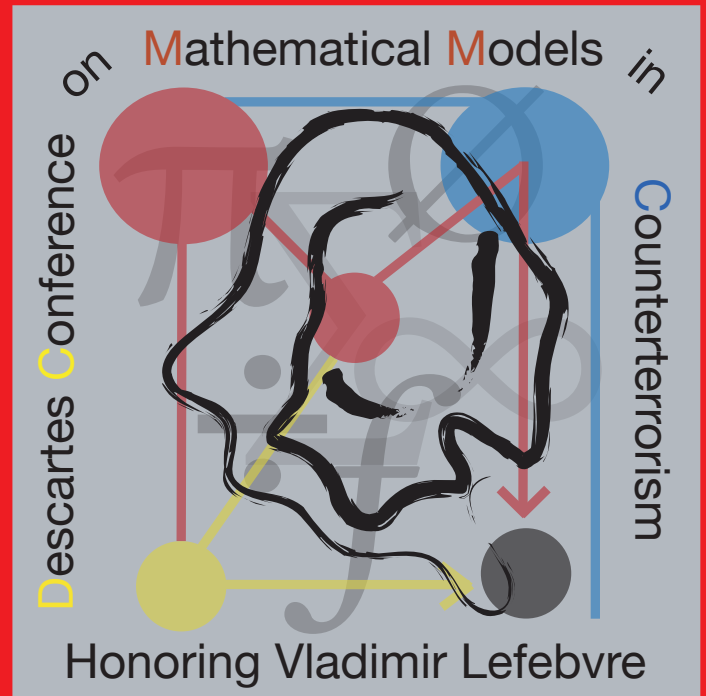

Conference Honorary Chair

Vladimir Lefebvre

Conference Co-Chairs

Jerrold Post    Newton Howard

Stefan Schmidt

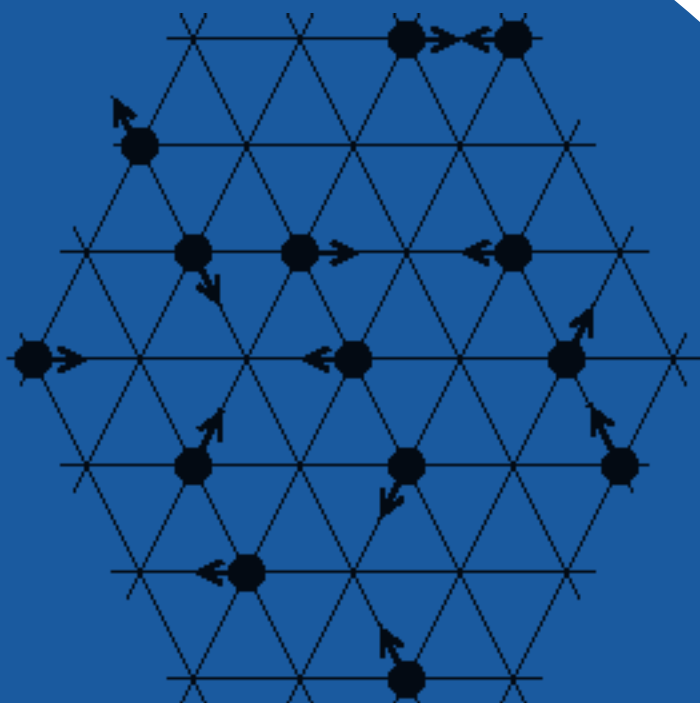

## CALL FOR PAPERS!!!

The Center for Advanced Defense Studies is soliciting contributions for the Descartes Conference on Mathematical Models in Counterterrorism, to be held September 28 through 29 in Washington, DC. Hosted by the Center, this year's Conference honors distinguished scientist Dr. Vladimir Lefebvre. For more information, please visit the conference website at [www.c4ads.org/dcmmc2006](http://www.c4ads.org/dcmmc2006). Conference papers should address topics relevant to the Conference's interests: the application of mathematics in the development of counterterrorism, defense and security methods; and the relevance of mathematics in enhancing local, national global security.

**The main themes of the conference include but are not limited to:**

- Order structures, graph theory, lattice theory and formal concept analysis
- Cognitive psychology, models and reflexive control
- Cognitive linguistics
  - Information retrieval and knowledge discovery
  - Imaging science and surveillance
  - Modeling and agent-based simulation

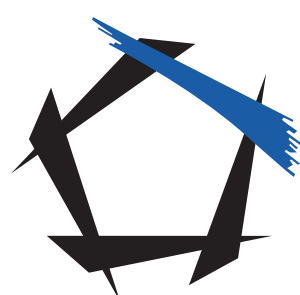

Located at:

Rayburn House Office Building  
Room 2168
